Text

- Font: Inter. Weights: Regular, Semibold, Bold, Extra bold (a few small labels use Medium).
- Desktop sizes: big headline 58 to 66, page title 32, section heading 24, body 15, small text 13.5, labels 12.
- Mobile sizes: headline 34, section heading 20, body 15, small text 12.5, labels 11 to 12.
- Line spacing: about 1.1 for big headlines, about 1.5 for body text.

Spacing and shape

- Spacing steps: 4, 8, 12, 16, 20, 24, 32, 40, 48, 64, 96.
- Corners: fields 8, small cards 12, cards 16, large cards 20, panels 24, buttons and tags fully round.
- Buttons are at least 48 tall. Cards are flat with a thin border, no shadow.

Screen sizes

- Mobile 375 wide, 20 side margin.
- Tablet 768 wide, 40 side margin (suggested).
- Desktop 1440 wide, content 1200 wide, 120 side margin (suggested).

Motion

- Most interactions: on tap, smooth animation (Smart animate), ease out, 400 ms.
- Where an interaction differs, follow the Figma prototype.
- Active toggles and pressed buttons glow in #19F0B4.
- Everything stops moving for people who turn animations off on their phone.

Icons and logo

- Icons: outline style, 2 px lines, rounded ends, colour #19F0B4 (see the Icons folder).
- Logo files were cut from the brand sheet picture, so they are soft when enlarged. Ask for the original vector files before launch.
- Use the white-letter logo on dark backgrounds and the navy-letter logo on light ones. Do not stretch or recolour.

Content rules from the brief

- No counters, fake partner logos, reviews or provider photos.
- Label sample prices and routes "Illustrative".
- Do not use the word escrow as a headline claim.
- "TBC" tags in the designs are notes, not text for the live site.
